Subject: PRIORITY OPPT IO Review - Draft OMB Significance Determination for Final Asbestos SNUR
Attachments: Asbestos SNUR Final OMB Sig Determination 2_27_2019.docx

Importance: High

Hans/Alison, please see the attached Final Asbestos SNUR draft OMB significance determination for Jeff/Mark review. Per AA/DAA direction from last week's briefing, this needs to get to RCS as soon as possible for processing through OCSPP IO, OP, and finally OMB so we can try and get the final SNUR signed by end of March. Thus, anything you can do to expedite OPPT review of this piece would be appreciated.

We anticipate the determination to be Non-Sig as the NPRM was, but that OMB may want a call/briefing to understand the public comments and what changes we've made.

Tanya and Steve A in OGC have reviewed – please let me know if you have any questions/concerns with anything.

Thanks!
